U.S. Refrigerants Cross-Reference Guide

Answer: It's the year HVAC companies began to phase out the installation of air conditioning units and refrigeration systems using R22 (also known as HCSC-22, or Freon) refrigerant, in anticipation of a nationwide import and production ban which will come into force in 2020.

The Ultimate R22 Replacement Guide | Gateway Mechanical

I have had a 30lb pig of R12 in my garage for almost 15 years. Probably havent used 6 pounds out of it in that time. I always think about selling it but you never know when an old system might need a recharge. If you are converting to R134a it will take less freon, if I remember correctly when I converted the 79 trans Am it took 2.4 pounds.
